

BUILD YOUR CAREER WITH SITE CONNECT

Great projects start with great people.

WHO WE ARE

Site Connect is an electrical contractor with teams working on projects across Alberta and throughout Canada. Our work covers everything from residential to commercial and industrial projects, service work, low voltage and security, fire alarm, controls, and data/network systems.

We're proud of the work we do, but we know the company is only as strong as the people behind it. Our goal is to build a team where people enjoy coming to work, feel supported, have opportunities to grow, and are recognized for the work they put in.

Whether you're starting your apprenticeship, building your skills as a Journeyman, stepping into a leadership role, or joining our office team, we want Site Connect to be a place where you can build a long-term career.

WHAT YOU CAN EXPECT FROM SITE CONNECT

Competitive Benefits

Comprehensive group benefits for eligible employees, helping support you and your family.

Matching RRSP Program

A company matching RRSP program to help eligible employees build toward their long-term financial goals.

Safety-First Culture

A strong commitment to safe work practices, training, accountability, and making sure our people go home safely.

Health & Wellness Spending

Health and Wellness Spending Accounts provide added flexibility to support your individual needs.

Growth & Development

Opportunities to learn, take on new responsibilities, develop leadership skills, and grow with the company.

Team-Driven Environment

A collaborative workplace built around respect, communication, reliability, and supporting one another.

ELECTRICAL ESTIMATOR

[Join the Site Connect team.](#)

LOCATION: Edmonton

EMPLOYMENT: Full-Time

Pay: \$100K - \$120K Annually

Job Overview

The Estimator is responsible for preparing accurate, competitive, and detailed cost estimates for electrical and low-voltage projects. This role involves reviewing project drawings, specifications, and scopes of work, completing material and labour takeoffs, and developing comprehensive bid packages. Working closely with Project Managers, Division Leads, and the operations team, the Estimator supports successful project bidding while ensuring accuracy, consistency, and profitability throughout the estimating process.

Responsibilities

- Review project drawings, specifications, and tender documents to prepare accurate and detailed cost estimates for electrical and low-voltage projects.
- Complete material, equipment, and labour takeoffs using estimating software and project documentation.

Responsibilities Continued

- Develop competitive project estimates, ensuring alignment with project scope, timelines, and budget requirements.
- Obtain, review, and compare supplier and subcontractor quotations to ensure accurate and competitive pricing.
- Prepare and submit complete bid packages, proposals, and tender documentation within established deadlines.
- Collaborate with Project Managers, Division Leads, and leadership to review estimates, identify potential risks, and confirm project requirements.
- Identify scope gaps, discrepancies, and opportunities for cost savings throughout the estimating process.
- Maintain accurate estimating records, pricing databases, templates, and supporting documentation.
- Support improvements to estimating processes and procedures to increase efficiency, consistency, and accuracy.
- Participate in project handoff meetings following successful bids, ensuring clear communication of project scope, pricing, and assumptions.

Qualifications & Skills

- Minimum 3 years of electrical estimating experience within the construction industry.
- Journeyman Electrician certification or a diploma/degree in Electrical Engineering Technology, Construction Management, or a related field.
- Strong knowledge of electrical materials, labour requirements, installation methods, and construction practices.
- Experience estimating residential, multi-family, commercial, or industrial electrical projects.
- Ability to read and interpret construction drawings, blueprints, specifications, and tender documents.
- Proficiency with estimating and takeoff software such as Accubid, Bluebeam, SureCount, or similar programs.
- Strong understanding of project costing, budgeting, and construction tendering processes.
- Excellent analytical, organizational, and problem-solving skills with strong attention to detail.
- Ability to manage multiple estimates and competing deadlines while maintaining accuracy.
- Strong communication and interpersonal skills, with the ability to collaborate effectively across departments.
- Low-voltage estimating experience is considered an asset.
- Additional training in construction estimating, project management, or cost control is considered an asset.

Why Join Site Connect?

You will be joining a growing team working across a diverse range of electrical and infrastructure projects. We are committed to providing a safe, supportive environment where employees can build their skills, take on new challenges, and create a career they are proud of.

Interested in joining our team? We would love to hear from you.
